### GOVERNOR MARKELL CUTS RIBBON ON NEW AMT OFFICE IN NEWARK

**Newark, Delaware** – Delaware Governor Jack Markell and the Director of the Delaware Economic Development Office Alan Levin held a ribbon cutting at the Newark, Delaware office of A. Morton Thomas and Associates. The office will initially provide construction inspection and management services to the Delaware Department of Transportation and is expected to quickly expand to offer other engineering-related services.

AMT, headquartered in Rockville, Maryland, and serving the Mid-Atlantic region, is a full service engineering and related services company with more than 55 years of experience and, in addition to the Delaware office, has 10 offices in Maryland, Washington, D.C., Virginia, and North Carolina.

Company President Michael Wiercinski indicated his intent for the office. “Our Delaware office carries the full support of company leadership and the resources afforded by more than 300 professionals companywide. The office will continue the AMT tradition of safety, quality and the collaborative approach that has allowed us to grow and expand this far. We appreciate this opportunity to forge new partnerships throughout the state of Delaware.”

The governor and secretary were also joined by members of the state and New Castle County Chambers of Commerce.

The office is located at 200 Continental Drive, Suite 100, Newark Delaware, 302-737-1627.

###
